

5th

**Annual Scientific Meeting of
the Cardiology Department
Dar Al Fouad Hospital**

DAFHeart 5

“Challenges in Cardiology”

Under the Patronage of
His Excellency

Prof. Hatem Elgabaly

Minister of health

Honorary Chairmen

Prof. Mohamed Abdel Wahab

Prof. Hisham El Kholy

Conference Chairman & Course Director

Prof. Nabil Farag

General Secretary:

Prof. Mohamed El Ramly

Welcome Address

On behalf of Dar Al-Fouad Hospital in collaboration with Cleveland Clinic International, the scientific committee of cardiology department is organizing the 5th annual meeting titled "DAFHeart 5". We hope to meet the expectations of the cardiologists who plan to attend such conference.

As we always intend, we plan to have an international and regional caliber meeting. The spirit of the meeting will always be "what is coming up in the different fields of Cardiology".

In this year we added live in a box sessions (coronary and non-coronary) to learn more technical skills from the experts experienced in these techniques. The program included well selected sessions trying to cover the most important cardiology topics which characterize the meeting. Special sessions for the nurses are an essential part of the program.

Needless to say, this program will never be possible without the generous co operation of our guest faculty. More over, the cooperation of the supporting companies was essential to have this meeting in this great shape.

We will be honored by your participation as a faculty, guest speaker, or attendee that surely will support our mission and contribute to our success.

Program Goals

- *To facilitate worldwide knowledge acquisition and exchange regarding global issues and challenges related to cardiovascular care and disease prevention.*
- *To offer education that integrates the best practices of cardiovascular specialists and health care professionals working in multidisciplinary teams.*
- *To emphasize the translation of evidence-based cardiovascular science and clinical trial data into daily clinical practice.*

Target Audience

- *The annual scientific conference of Dar Al Fouad Hospital "DAFHeart 5" is intended for all professionals involved in delivering cardiovascular care, with particular emphasis on Cardiologists (senior and young junior staff), and nurses. Other health care providers will also benefit.*

Guests Faculty *(in alphabetical order)*

Ahmed A. Khattab

Dr. Khattab is currently holding the position of consultant cardiologist at Bern University Hospital – Switzerland and was appointed Associate Professor at the Faculty of Medicine. Before he moved to Switzerland last year, he was directing the cardiac catheterization laboratories at the Heart and Vascular Center Bad Segeberg – Germany. He is leading clinical and research programs in the field of structural heart interventions, myocardial infarction and complex coronary interventions. Khattab completed his medical education at Ain Shams University Cairo – Egypt and gained his Masters degree and Medical Doctorate degree in Cardiology from the same University. Dr. Khattab is member of several international academic boards and serves as a consultant for several medical device companies.

Albert A. Hagege

Vice-president of the French Society of Cardiology, Professor of Cardiology at Hôpital Européen Georges Pompidou, and is a member of the Institut National de la Recherche Médicale (INSERM 633), Paris, France. He is involved in the clinical and experimental aspects of heart failure and cardiomyopathies, particularly concerning new therapeutic modalities, imaging and genetics. He was involved in the first experimental and clinical works concerning the use of cell therapy in myocardial diseases and recently became European Coordinator of a Transatlantic Leducq Network devoted to mitral valve diseases, particularly in hypertrophic cardiomyopathy. He has more than one hundred international publications concerning genetics, cardiomyopathies and new therapies for heart failure.

Cesar Morice

Graduated in Medicine at Oviedo school of medicine , Director of the University Hospital Central de Asturias , Tutor in postgraduate training of cardiology at the Hospital Central de Asturias. , Vicepresident of the teaching comision at the Hospital Central de Asturias President of the Asturiana Society of Cardiology 1995-1997 President of the Haemodynamic and interventional cardiology group of the Spanish Society of Cardiology 1997-2000 Member of the editorial board of the journal of the Spanish society of cardiology.1997 Member of the regional ethics and clinical investigation committee of the Principado de Asturias. 1999

Didier Blanchard

Senior consultant, Department of Cardiology, Georges Pompidou Hospital 2002-ongoing: Head, Interventional Cardiovascular Unit, European Hospital Georges Pompidou, Paris
2000-ongoing: Head, Department of Regulation for Implantable Devices, European Hospital Georges Pompidou, Paris
2004-ongoing: Fellow of the European Society of Cardiology
2004-ongoing: Member of the EAPCI - European Association for Percutaneous Cardiovascular Interventions
Chairman of the French national database on interventional cardiology

Hans Erik Boetker

is interventional cardiologist, professor of cardiovascular medicine at Aarhus University and codirector of Department of Interventional Cardiology at Aarhus University Hospital, Aarhus, Denmark. President of the Danish Society of Cardiology and board member of EBAC. Clinical education and research career at Odense and Aarhus University Hospitals and University of Texas HoustonMedical School, Houston, TX. He has published 140 papers in international per-review journals mainly within cardio protection, myocardial metabolism and interventional cardiology. Author of ten book chapters in international textbooks of cardiology and internal medicine.

Edoardo Camenzind

Medecin adjoint agrégé University Hospital of Geneva and University Hospital of Lausanne, Switzerland , Director interventional cardiology. University Hospital of Geneva, Switzerland. (Prof P. Delafontaine 1998-2000; Prof U. Sigwart 2002-2006) Dr med, University of Lausanne 1992 Visiting Professor, Thomas Jefferson University of Philadelphia USA1999 Diploma of European Cardiologist Privat Docent (associated professor) of the University of Geneva 2004

Philippe Menasche

Graduated (M.D.) from the School of Medicine of the University of Paris PhD in Cardiovascular Physiology obtained at the Faculty of Sciences Of the University of Paris-Orsay , Professor of Thoracic and Cardiovascular Surgery,Advisor to the Minister of Health on stem cells (2005-2007), Member of the National Council of the Universities ,Member of The French Society of Cardiology, Member of the Council of Cardio-thoracic and Vascular Surgery of the American Heart Association.

General Information

Language

The official language is English.

All lectures and presentations will be held in the English language only .

There will be no translation available

Electricity

The electricity supply in Egypt is 220 Volts, 50 Hz.

Most hotels also provide 110 Volts outlets for shavers

Messages

A message center will be available at the Registration desk of the conference.

Currency banking (rates are subjects to market fluctuations)

Egyptian Pound is the official currency in Egypt.

Foreign currency exchange is available in most of the hotels, banks and currency exchange offices.

Exchange rate of 1 US\$ = 5.5 EGP

Exchange rate of 1 € = 7.5 EGP

ATM machines are available all through the city and at the vicinity of the conference hotel

Badges

For organizational and security reasons, badges must be worn at the congress venue.

Access to the different areas will only be granted upon presentation of an adequate badge.

Please note that CME credits are calculated according to barcode printed on the badge and signed in and out at the door of each session.

Housing

All rooms are on Bed & breakfast basis; Lunch & Coffee break are only served upon coupons.

Hotels available are:

Novote 6 October Hotel

Conference Venue

Certification

Individual Credit hours for attending the conference (According to Barcode System). Credit hours for the different sessions will be provided at end of each session, certification with the number of credit hours will depend on getting a proof from attendance analysis of the bar code system. Certificate will be issued ONCE with the actual ratio of scientific attendance.

Please Check Back with us regarding the CME Credits

Organizational Notes

****Phones should be turned off during the sessions****

Registration Hours

Registration desk will be ready on Thursday, May 13th at 08:30 AM

**LADIES AND CHILDREN ARE NOT ALLOWED TO ACCESS THE CONFERENCE VENUE.
NO EXTRA COUPONS FOR LUNCH OR COFFEE BREAK WILL BE AVAILABLE (NO SALE)**

Scientific rooms Hours

Scientific rooms will start on Thursday, May 13th at 10:00 AM

Industrial exhibition Hours

Exhibition area will be ready on Thursday, May 13th at 08:30 AM

Refreshment & Lunch

- All refreshments and lunch activities will be served against coupon.
- Each coupon is valid only for the meal mentioned on it and according its time.
- Lunch and refreshment breaks are served to all congress participants on the allocated time.

Audiovisual Guidelines

Please use a PC (IBM Compatible) not Apple Macintosh formats.

- Computers used in the conference are PCs loaded with Microsoft Office 2007.
- Please use Microsoft PowerPoint XP or later version to prepare your presentation.
- If your presentation includes embedded movies and/or sound, use the "Pack and Go / Package for CD" feature. This is found under the file menu. Pack and Go makes sure that all elements of your presentation are compiled together. This is especially important if you are saving to a CD. You risk not having all of your movie clips, graphics and sound clips if you use a standard "Save" or "Save as."
- If your presentation includes movies or embedded fonts, be sure, when creating a backup disk, to create a folder that includes your presentation and movie files or sound clips. This will insure that all the tools used to create the presentation are readily accessible on the show site, should the need arise to modify the presentation.
- Please remember that your movies should be in MPEG1 format. AVI files might not work properly on all computers unless special codec is used. MOV is not a compatible format to be run inside PowerPoint.
- DICOM players will not be available in all computers serving the conference.
- Speakers are not allowed to use their personal laptops whatever the reason is. Strict rules are applied in this matter. Apple users must prepare a PC compatible CD or DVD loaded with their presentation(s).
- Only digital media is allowed as a tool to present data, namely CDs, DVDs, Flash memory &/or external hard drive. No 35mm physical slides are allowed. No video tapes. No Transparencies. No Whiteboard. No Bluetooth mobile phones.
- Computers inside halls are not connected to the internet.
- Speakers MUST handle their PRESENTATION CDs one hour AT LEAST before the beginning of the session.
- The duration of the presentation is controlled digitally through computer software that will give a warning 3 and 1 minute(s) before the end of time end the view when time is up, thus we value your understanding to stick to the dedicated time.
- We are glad to help any speaker in case there is a need of any assistance.
